- AMD Duron 800, 25Mb RAM, 10Gb HDD, Integrated Graphics, Sound, Modem, LAN - £0.99 with 3 hours to go
- PIII-733MHz, 512Mb RAM, 10Gb HDD, CD-RW, FDD, 16" Monitor, Keyboard & Mouse - £0.99 with 4 hours to go

Project OSS

Free software is a matter of the users' freedom to run, copy, distribute, study, change and improve the software. More precisely, it refers to four kinds of freedom, for the users of the software:

- The freedom to run the program, for any purpose
- The freedom to study how the program works, and adapt it to your needs.
- The freedom to redistribute copies so you can help your neighbour.
- The freedom to improve the program, and release your improvements to the public, so that the whole community benefits.

Project OSS

- Massive community of developers and testers
- Access to Source Code
- Redistribute the changed program
- Install on as many machines as you want
- Bugs resolved rapidly
- Choice
- Install and remove
- No registration or activation
- Tolerant of System changes
- Share

Project OSS

- The Operating System (Closed Source)
 - Windows 95, 98, 2000, NT, XP & Vista
 - Apple OS X, UNIX, HPUNIX, MS DOS, DR DOS
- The Operating System (Open Source)
 - Free BSD, GNU/Linux
- Flavours of GNU/Linux (Distributions)
 - Red Hat, Fedora Core, SUSE, Mandrake, Debian, Ubuntu, Slackware
 - Scientific Linux, Clarke Connect, SME Server, Damn Small Linux

Project OSS

- Download UBUNTU and burn a bootable CD
- Boot from CD into a “live” version of UBUNTU
- Try out the “live” version – then install to HD
- 6 question screens:
 - Language, Location & Timezone, Keyboard Layout, Username & Password, HD Partition and Confirmation
- Took about 45 minutes
- No multiple reboots & fully functional

Project OSS

- Included MS Compatible Office Suite
 - Word Processor, Spreadsheet, Presentation Package & Database
- Image Manipulation Program
- Internet Utilities
 - Firefox Browser, Evolution Email Client, GAIM Instant Messenger & IRC, FTP built into the file manager
- Utility Applets
 - calculator, file manager, photo album, card games, text editor etc
